### 2,000 Women Are Mustered Out Of U. S. Naval Ranks

WASHINGTON, July 21.—More than 2,000 yeomen (F) and female marine corps reservists on duty here were mustered out of the navy today. Many of them will be employed in the navy department in civil service capacities. The remaining "yeomenettes" and marinettes on duty in various parts of the country and island possessions will not be released from active service before Aug. 31, under the provisions of the new naval bill.

Secretary Daniels and Maj.-Gen. George Barnett reviewed a battalion of uniformed yeomen (F) and a company of marinettes here yesterday as part of a farewell ceremony. Mr. Daniels paid a high tribute to the yeomen (F) and praised their faithful and patriotic service. He said their enlistment had released nearly 10,000 men for active service with the fleet and with the marines in France.

During the war the yeomen (F) corps reached a strength of 11,715, some of its members serving in Europe and in all other places where there were naval establishments or stations. They rendered valuable services as stenographers and typists, clerks, transcribers, camouflage artists, finger print experts, draftsmen and recruiting agents. Most of the 200 female marine reservists, as the marinettes were officially styled, served at marine corps headquarters in the navy department.

On the eve of their return to civilian active and status, Secretary Daniels said in a statement to the corps:

"It is with deep gratitude for the splendid service rendered by the yeomen (F) during our national emergency that I convey to them the sincere appreciation of the navy department for their patriotic co-operation."

### FINISHING THEIR HOGS WITH TANKAGE

The extensive sale of tankage indicates that the hogs marketed in the Memphis territory during the coming fall and winter will be much better finished than heretofore, according to the expression of the market information bulletin of the Chamber of Commerce farm bureau. "A local firm reports the steady increase in the sale of tankage in this territory," the bulletin says, "as much as six cars having been sold during the week. This indicates that the hogs to be marketed during the coming fall and winter will be much better finished than his heretofore been the case. The shipping of half fat hogs to market has been the chief business in the hog raising industry of the tri-state territory. County agents and extension workers are overcoming this very rapidly by teaching and demonstrating the use of self-feeders for finishing out hogs. Corn with some feed rich in protein, probably gives better results than any other fattening feed. There are now thousands of hogs on corn and tankage or corn and cottonseed meal in self-feeders, in preparation for fall shipments. With this finishing ration combined with fast growing crops in growing hogs, cheap, and at the same time very satisfactory market hogs can be produced.

"Even at the high price of corn and of protein feeds the farmers who are trying it out are finding that it pays to feed the hogs out and get them well finished before shipping. In this way they not only add to the weight of the hogs and get them in the more desirable market classes, but they increase the value of the original weight of the animals through improving the quality of the flesh."

### CHARLESTON-HICKMAN ROAD SEEMS CERTAIN

HICKMAN, Ky., July 21. (Sp.)—The Charleston-Hickman road, the building of the Charleston-Hickman railroad is very optimistic, \$22,700 having been pledged in stock in that city and signed up with over \$8,000 more promised from farmers of that section, without any work on the part of the local committee.

Over \$150,000 is necessary to insure the building of the railroad, but \$150,000 being required, but \$150,000 pledged Eastern syndicates will put up the necessary fund to build the road. Very likely an early date of subscription will be asked here to the extent of something like \$5 per acre for the land which will be benefited by its construction.

The plans as outlined at Charleston and at Hickman contemplate a location of the road as nearly as possible on the survey made for the Hock project in 1911, going south from Charleston parallel to the Wolf Hole Drainage ditch, crossing the Cotton Belt at Abington, Mo., thence southwest to the Wolf Island country, and from there due south to Hickman, with at least freight transfer service at Hickman over river.

### ALLIED COUNCIL TALKS OVER SHIP DIVISION

PARIS, July 21.—Division of the German and Austrian warships among the allies was discussed at length yesterday by the supreme council, but no decision was reached.

The council approved a report of Marshal Foch recommending the immediate expulsion of the German army from Latvia, where Gen. von der Goltz and other German officers are declared to be becoming insolent and are endeavoring to prevent the Letts from establishing a firm government.

The council approved the clause in the Bulgarian treaty guaranteeing the rights of minorities and also the arts and waterways clause, subject to final boundary decisions, which have been delayed through failure to agree on the question of Thrace.

### Habitual Constipation Cured

In 14 to 21 Days  
"LAX-FOS WITH PEP-SIN" is a specially-prepared Syrup-Tonic-Laxative for Habitual Constipation. It relieves promptly and should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 60c per bottle. adv.

### COURT TO MEET TO ELECT COUNTY SHERIFF

CLIFTON, Tenn., July 21.—A special session of the Wayne county court has been called for next Monday, Aug. 2, for the purpose of electing a sheriff to fill the unexpired term of the late sheriff, J. M. Barnett, who died of pneumonia Thursday. So far as is known at present there are but three applicants for the place. They are Book Throckmorton, Gus Davis and Will Barnett, the latter being the son of the deceased sheriff, who recently returned from Detroit.

The death of J. M. Barnett, the late sheriff, and Andy Battles, one of his close competitors in the race for sheriff in the late fall of 1917, occurred at the same hour on last Thursday.

### SPIRIT NEGRO AWAY TO PREVENT MOB OUTBREAK

ATLANTA, Ga., July 21.—Bertram Hamilton, a negro, who police say is the son of a well-to-do negro contractor and builder here, was rushed to Atlanta last night from Marietta to prevent possible mob violence after his arrest on a charge of an attack on a young white woman near Henrietta. A mob was forming at the time the negro was spirited away and rushed through the country about 20 miles in an automobile, according to information given out here. The negro denied any connection with the affair. Police say he carried a heavy pistol when arrested. He is about 20 years old, and has been attending a negro university here.

### SETS U. S. RECORD.

MINNEOLA, N. Y., July 21.—Although failing to establish a world altitude record, Roland Rohlf, civilian aviator, flying a Curtiss wasp plane, set a new American mark yesterday when in an official flight from Roosevelt field he reached a height of 30,700 feet, according to the figures on his barograph.

### U. S. SELLS TEXTILES.

NEW YORK, July 21.—More than 21,000,000 worth of surplus textiles were auctioned off here in about three hours by the surplus property division of the War Department. The goods were taken from the government taking more than \$1,000,000 of it.

### MISSISSIPPI GIRLS CAN FINE BERRIES

Large quantities of excellent blackberries have been canned by the canning club girls of Mississippi, according to word received from Miss Mary E. Johnston, assistant home demonstration agent, by the Memphis Chamber of Commerce farm bureau. There is, according to Miss Johnston, a very active inquiry for these berries as there were fewer berries than usual canned in other sections.

"The Mississippi club girls have standardized their products," the home states, "and are guaranteeing the quality of their goods. As a result the canned fruits and vegetables are finding their way into the regular commercial channels of trade. Miss Johnston anticipates that they will realize an excellent price on their berry crop. Prospects are good also for the output of canned tomatoes from the club girls."
